

**The Curriculum:** This package was developed to help you plan realistic goals and to give you the strategies needed to help you achieve these goals. Upon completion of each course you will have learned how to become better organized and more effective. We hope to prepare you to make decisions that will propel you to the next level of your hair replacement business.

**Our Vision:** We strive to be a highly effective training center that delivers exceptional value to clients, business owners and hair professionals. We want to be known for the creation of innovative techniques, products and services in hair replacement.

**Mission Statement:** Our Training Center's mission is to operate a socially responsible institution that prepares hair professionals in the art of non-surgical hair replacement.
